

gko::log::Logger

```
classDiagram
    class gko_log_Stream_ValueType["gko::log::Stream<ValueType>"]
    class gko_log_Logger["gko::log::Logger"]
    gko_log_Stream_ValueType --|> gko_log_Logger
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'gko::log::Stream<ValueType>'. A blue arrow points upwards from this box to a white box at the top labeled 'gko::log::Logger', indicating that 'gko::log::Stream<ValueType>' inherits from 'gko::log::Logger'.

gko::log::Stream<ValueType>
